SPONSORS OF PAVIORS RUGBY CLUB

WELCOME TO PAVIORS

Good afternoon and welcome to Burnstump, for our first home league game of the season, where we welcome Newark

It is with immense pride and genuine excitement that I extend a warm welcome to you as the new President of Pavors RFC. Our club stands as a beacon of camaraderie, sport, and unwavering community spirit, and I am both honored and thrilled to guide us into this new chapter.

For those of you yet to meet me, I am Boyd Elliott your President and ambassador for the club. I have come all the way through the club, 30+ years, played at all levels, reffed, coached and enjoyed many socials supporting our great Pavors Family.

For over 100 years, Pavors RFC has been more than just a rugby club; it has been a family where passion for the game meets deep-rooted friendships. Each match, training session, and social event contributes to a rich tapestry of shared experiences that define who we are.

As we embark on this journey together, my vision is clear: to uphold the traditions that have been the cornerstone of our success while embracing new opportunities for growth and innovation within the club. We are committed to nurturing talent, fostering inclusivity, and strengthening the bonds that make our club a second home to so many.

In addition to our commitment to rugby excellence, I want to address a critical aspect of our wellbeing: mental health. It's essential that we recognise the pressures and challenges that life beholds us and the mental resilience required can sometimes overshadow the importance of mental health. At Pavors RFC, I am dedicated to creating a supportive environment where mental health is openly discussed and prioritised. We are working to ensure that every member feels comfortable seeking support, whether through professional counseling, peer support networks, or simply an open conversation with teammates. We encourage all our members to be proactive about their mental health, and to remember that reaching out for help is a sign of strength, not weakness. Our club will continue to provide resources and create spaces for dialogue, aiming to break down the stigma and promote a culture of understanding and support.

Thank you for your continued dedication and enthusiasm. Let's work together to make the upcoming season one of our best yet, both on and off the field.

With best regards,
Boyd President,
Pavors RFC

Referee Mike Gray (NLDRFURS)

A MESSAGE FROM THE DIRECTOR OF RUGBY

Today we offer a warm Pavlors welcome to our local visitors Newark RUFC, in this season's first home league game in Regional 2 Midlands North.

Our visitors opened their season last week with a promising home victory over Matlock (38-24). Despite a typically hard fought performance from the visiting Matlock squad, Newark won through scoring 5 tries to Matlock's 3. That first result sees Newark currently lying in 4th place in the table. The league this season has an even more local feel, losing Sutton Coldfield and Wolverhampton relegated and Long Eaton promoted; with Ilkeston, Dronfield and Old Saltleians entering the fray. With only Lichfield the stand-out team last season, the league looks very competitive with lots of local derbies to look forward to. After an encouraging performance and a win in our final pre-season game against Market Bosworth (41-21), last week's game was disappointing. The game at Melbourne rarely rose above the mediocre from both sides, the home side prevailed (20-15). There were some highlights, particularly in an improved second half where there was a real possibility of overhauling the home side's lead. All debutants and youngsters delivered sound performances which is really positive.

With Newark finishing in 8th place last season to our 5th position and the 2 teams sharing the spoils, each winning one match; today's game promises to be a close one as both sides seek to move up the table. With both teams striving to play exciting, entertaining and effective rugby, let's hope for a great game today, with a result to delight the Burntstump crowd. Visitors and home supporters alike, I hope you all have a good day and enjoy the game.

Pat Billam Director of Rugby

THE CENTENARY LEGACY PROJECT

Covid threw a wet blanket over our Centenary Celebrations not least the development of new changing rooms, which was to be our Legacy Project. This improving on an already great facility as we embark into our second century. Even before that we were dogged by planning issues and lack of funding causing frustrating and expensive delays. The idea of this project emerged in the 2017/18 season which seemed to give plenty of time to get organised but the year was soon upon us and plans were drawn up. Green Belt issues meant we had to downsize our original plans but planning consent was finally received in June 2021 in the midst of

the pandemic. Funding dried up at the same time and rising costs meant we were well short of the £300k estimated cost. A lengthy process of agreement over VAT recovery slowed things but then I was able to negotiate a £100k grant from the RFU, a game changer. Work was due to start at the end of the 2022/23 season but unfortunate and unavoidable circumstances put this back and we finally broke ground at the end of July this year. We then endured protracted disagreements between our architect and structural engineer leading to a month when no work was carried out. This we resolved and work is now continuing apace.

Due to the logistics of the Park Hospital using the car park Monday to Friday and our own intense usage over the weekend there is much work we will be unable to do until the rugby season ends but the project will be completed for the start of the 2023/24 season following an official opening in August. This year also marks the 50th Anniversary of Paviers Sports Club Ltd, the organisation established in 1973 that secured the ground and celebrations of that will be included. Throughout the process the support I have received from Duane Broddell has been immeasurable and we can't thank him enough. At a time when our

funds do not stretch to finishing the project Duane is saving Paviers tens of thousands of pounds and we are in his debt. Similarly Howard Marshall, in addition to all his sterling work on the playing surfaces, is always there to support the project and has saved us thousands of pounds too. Latterly Dan Tipple whose son plays in the Under 13's, whose kit he sponsors, has come on board and we are grateful to the huge savings he has made on steelwork. In addition to his long standing support of the Club Sean Stevenson is supplying insulation at much reduced cost.

You will notice the Patrons Board in the clubhouse some names are rightly on there as well as organisations who have contributed significantly. There is room on there for more names so if you can help and make a significant contribution you could join them.

But every little helps and if you can assist in anyway, have you bought your brick yet, we can finish the project in style.
